

Body Armour Bag

The new body armour carry bag from VestGuard UK provides an easy, safe and secure way to carry your kit when not in use.

Through customer research our modified design incorporates a padded Hard Armour Plate pocket on the front of the bag for safer transportation of your upgrades.

We have included a new soft cushioned non slip shoulder strap improving comfort when wearing for long durations. The size of the strap help spread the weight more evenly over the shoulder the help reduce fatigue in the theatre.

Taking the same principles as our body armour each seam is cross stitched to strengthen the bag in weaker and rip prone areas.

Features

- o New Hard Armour Plate pocket to reduce possible damage in transit.
- o Upgraded shoulder strap improves comfort and reduces fatigue.
- o Air vents reduces the internal core temperature in hot environments.
- o Made from cordura.
- o This bag can be carried in 2 different ways over the shoulder and handheld.
