DATA SHEET

Bouncer

Personal Attack Spray

Bouncer Spray is a dual action aggressor deterrent which emits a cloud of highly repulsive odour, rendering any attacker helpless.

As well as a repulsive odour that clings to clothes, "Bouncer" contains an Ultra Violet dye, which remains on the skin for up to 3 days.

With this dual action, attackers are more likely to be caught by the police, as their position and movement can be tracked if they flee the scene.

This product is ideal for both men and women who feel vulnerable when out on their own, and offers extra security and peace of mind.

Although this cylinder may look like CS gas to an attacker, this personal attack spray is completely Legal in the UK, offering protection for yourself, without the worry of legal action.

- *Dual Action aggressor deterrent*
- *Emits a repulsive odour and UV dye, enables the tracking of your attacker. Protect yourself.*

Bouncer spray is small and compact so is easily carried in handbags or a coat pocket. With a safety cap there is no fear of leakage.

- *Looks like CS gas can, but is completely legal in the UK!*
