*a great British company*

## Kevlar Defender Gloves

Defender gloves are made from quality genuine leather and are fully lined with high resistance Kevlar for slash protection

These gloves are used extensively by security services, door staff, Council Trading Standards, Environmental Health and Enforcement teams world wide

Kevlar is ten time stronger than the same weight of steel, and provides an excellent slash resistance, from sharp objects like glass or blades; offering another stage of protection for your hands

The gloves have elasticated cuffs, and are available in five sizes: Small, Medium, Large, X Large, and XX Large.

- Made from quality leather
- Slash resistant Kevlar lining
- S, M, L, XL, XXL
