

VESTGUARD UK

a Great British company...

BALLISTIC HELMET

Design Features

- Meets and exceeds international ballistic and fragmentation protection levels
- Updated design improves comfort, balance and stress fatigue
- Perfect laser cut edges with rubber coated finishing strip
- Drop tested and designed for superior performance
- Water, oil and vibration resistant
- Temperature, altitude and pressure stable
- Multi-hit protection tested on all sides including the crown
- Design compatible with communication systems, eye-wear, external mounting units, covers and other accessories
- Easy wipe clean finish

Harness Features

- Mesh suspension system with leather crown support
- Air gap between harness and shell provides excellent ventilation and improved sweat management
- Meets and exceeds shock absorption to EN-397
- Advanced mass distribution reduces lag during head movement
- Non magnetic, non corrosive parts
- Multiple point adjustable harness
- Quick release buckle

Production

- Made using VestGuard's unique formula. Aramid or Polyethylene (PE)
- Production capacity of up to 3,000 per month
- Available in a variety of designs, sizes and protection levels
